The International Workshop on Smart Systems and Artificial Intelligence (IWSSAI'2023) is organized by the Moroccan School of Engineering Science (EMSI) in collaboration with the Cadi Ayyad University (UCA) and Sultan Moulay Sliman University (USMS). This edition of the IWSSAI'23 will be held on May 25 and 26, 2023. Further details will soon be published.

The main objective of the IWSSAI'23 is to allow interested parties to discover the major technological advances related to AI and Smart Systems that have revolutionized the world today. This scientific event will also provide an opportunity for specialists to establish privileged contacts with the scientific community, especially with other research laboratories.

In addition, this international workshop will be the ideal opportunity for doctoral students to sharpen their theoretical and practical knowledge, to meet specialists, to rub shoulders with them more closely, to prepare them to take over and to ensure the continuity of their research fields
